Position Description

North Dakota State University invites applications for an Instructor of Animal Science. This is a 12- month, non-tenure track, undergraduate Instructor position in the Department of Animal Sciences; an academic unit of the College of Agriculture, Food Systems, and Natural Resources. The Department of Animal Sciences is seeking a quality individual to join the 27 members of the Animal Sciences faculty whose expertise and discipline interest areas encompass reproduction, physiology, nutrition, genetics, livestock management, and meat science. The Animal Sciences Department has the largest undergraduate student population in the College with over 400 total students in three undergraduate degree designations: Animal Science, Equine Science, and Veterinary Technology.

Responsibilities

Initial responsibilities include, but are not limited to, the following:

Teaching Responsibilities:

- Coach the NDSU Livestock Evaluation and Meat Animal Evaluation Teams
- Develop and teach innovative courses related to livestock evaluation
- Teach additional courses consistent with the successful applicant's expertise and departmental needs
- Advise undergraduate students and student organizations
- Provide leadership for departmental undergraduate recruiting efforts

Service Responsibilities:

- Enhance the department's outreach mission by expanding youth engagement and providing recruiting opportunities for the department
- Participate in professional development opportunities that enhance personal and professional effectiveness related to the duties of the position
- Develop appropriate professional relationships with livestock organizations and commodity groups in the state and region

Required Qualifications

- Minimum of an M.S. degree in animal science or a related field
- Experience teaching animal science related coursework
- Experience coaching livestock or meat animal evaluation
- Demonstrated commitment to enhancing student success through livestock and meat animal evaluation activities
- Excellent written, oral, and interpersonal communication skills and the ability to work in a diverse team atmosphere
- An appreciation for the mission of a modern Land Grant university
- Valid driver's license or the ability to obtain one

Preferred Qualifications

- Knowledge and experience in livestock management and animal husbandry
- Demonstrated commitment to excellence in coaching livestock evaluation
- Demonstrated commitment to excellence in classroom instruction and capability to develop innovative, effective methods of teaching undergraduate courses
- Ability to reach youth audiences through creative outreach efforts
