

ICU TECHNICIAN

VERMONT LARGE ANIMAL CLINIC – EQUINE HOSPITAL

The Vermont Large Animal Clinic- Equine Hospital is a 24-hour emergency and referral center that has an opening for an ICU technician. This individual needs to have excellent attention to detail, the ability to work as a member of a team, and ideally, basic horse experience. We have had excellent experiences hiring UVM students for this position in the past. Our ICU technicians are typically asked to be on call one night a week (5pm-8am) and one weekend shift (8am-8pm or 8pm-8am). When there are not cases in the hospital, technicians are on call in case of emergency referrals, and are asked to be within a 45-minute drive of the clinic during their shift. The role of our ICU technicians is to work closely with our team of doctors, perform medical treatments (oral and IV medications, IV fluids) and complete basic horse care and husbandry (feeding, cleaning stalls, grooming). This position is a great resume builder for students interested in applying for veterinary school, and a wonderful introduction to the equine veterinary community.

To apply, please email a resume and cover letter to:

Samantha Bigger, CVT
