

EQUINE MORNING CARETAKER

JUNIPER KNOLL FARM; JERICO, VT

We are excited to invite a new morning caretaker to our team at Juniper Knoll Farm. We are a boarding and training facility in Jericho, Vermont and are home to 17 boarded and farm owned horses. The riders are predominantly Hunter/Jumper and Dressage riders, though a few non-competitive riders enjoy our facility as well. We have the pleasure of having easy access to the MOBBS Trail System with many miles of publicly maintained trails. We care for our staff and provide a 24-hour heated grain room as well as tack room area for ease of work in the colder months. We need someone who will confidently and knowledgeably feed at 7:30 am, turnout, and clean stalls, etc. as part of a two-person team. Our current needs are for Wednesday - Saturday AM. The task takes approximately 3 hours per day. We do have some evening shifts available for someone who would like to supplement a morning schedule. Staff at Juniper Knoll are always professional, hard-working, punctual, dependable, honest, and enjoy the company of a diverse group of horse people. Experience and confident skill in handling a variety of horse types is required. Please call or email Becca Bailey with questions. Please do not text for job inquiry. \$10/hour to start. (802) 598-8524
